

Virtual EMA Mission

Virtual EMA is an association for emergency managers, students, researchers and tech companies who are uniquely interested in how data and collaborative technologies change emergency response.

Our mission is to promote learning about emerging tools, providing experience-based mentorship, encouraging innovation and whole community engagement in emergency response.

Technical Sponsorship Benefits

Join Virtual EMA as Sponsors

Virtual EMA has a lot to offer technical companies as partners in the emergency services sector.

We strive to create meaningful engagement opportunities to improve technologies to be used as solutions for communities in crisis and to equip and train emergency responders in technical and collaborative solutions.

Sponsorship Levels

Our goal is to be accessible to all types of companies, whether large or small.

To accomplish this, we have developed a special suite of benefits for both emerging technology developers and big data companies whether you are interested in simple affiliation or more expansive idea and product testing.

We offer five different sponsorship levels:

- Platinum Sponsorship above \$10,000
- Gold Sponsorship above \$5,000
- Bronze Sponsorship above \$1,500
- Corporate Membership for \$500
- In-Kind Sponsorship

Benefits of Sponsorship

Website Presence

- ✓ All Corporate Members get their company name & hyperlink added to our website.
- ✓ Logo Placement varies based on sponsorship
- ✓ Online Corporate Member Directory (Gold)
- ✓ Banner Ad (month) & Company Bio (Platinum)

Active Recognition

- ✓ Newsletter Acknowledgement (Bronze)
- ✓ Social Media Shout-Outs & Company Profile in newsletters (Gold)
- ✓ 10-15 minute product or company presentation space at monthly Virtual EMA meetings (Platinum)

Add-On Opportunities

- ✓ Event Sponsorship (early access)
- ✓ Beta-Test / Evaluation Session (\$500-1000)
- ✓ Product Demo Webinar (\$500-1000)

Other Types of Sponsorship

In-Kind Support

Does your technical company offer non-profit access to your product line(s)? Providing Virtual EMA with a non-profit license of your technology allows our members to gain valuable experience with your products before they invest.

Referral Sponsorship

All members of Virtual EMA earn a free month of membership for each new member referred. If you are the referral source for a new corporate member, an additional month of corporate membership will be awarded to your company.

Members of private companies may also become individual members. This level of membership also may earn referral months for new individual members.

Partnership in Innovation

The beauty of Virtual EMA is that we celebrate innovation and creativity. So, if you have an idea for partnership, we want to hear about it. We are seeking to do things differently, valuing accessibility, collaborative solutions and finding new ways of problem-solving that are outside the "traditional" box of emergency management tools.

Partner with us today!
